ANCR's Scientific Programme - 29th August

10.00-11.00 **Registration**

11.00-11.15 **Opening**

Giske Ursin, Cancer Registry of Norway

New concepts in epidemiology Chairs: Risto Sankila/Trude Eid Robsahm

11.15-12.00 **Answering the "what if": Counterfactual analysis in epidemiology**

Keynote Speech: Kjetil Røysland, Dept. of Research, Cancer Registry of Norway/Institute of Basic Medical Sciences, University of Oslo

12.00-12.15 **Causal inference: Estimation of direct and indirect effects in survival analysis**

Odd Aalen, Dept. of Biostatistics, University of Oslo/Cancer Registry of Norway

12.15-12.30 **Estimating the loss in expectation of life due to cancer using flexible parametric survival Models**

Therese M-L Andersson, Dept. of Medical Epidemiology and Biostatistics, Karolinska Institute

12.30-12.45 **How can we make cancer survival statistics more useful for patients and clinicians - an application using localized prostate cancer in Sweden**

Sandra Eloranta, Dept. of Medical Epidemiology and Biostatistics, Karolinska Institute

12.45-13.00 **Conditional survival statistics in standard cancer registry reporting**

Bjørn Møller, Dept. of Registration, Cancer Registry of Norway

13.00-14.00 **Lunch**

Cancer Screening Chairs: Nea Malila/Hilde Langseth

14.00-14.15 **Is cancer screening worth the effort?**

Elsebeth Lynge, Dept. of Public Health, University of Copenhagen

14.15-14.30 **The age-specific effectiveness of cervical cancer screening?**

Stefan Lönnberg, Cervical Cancer Screening Programme, Cancer Registry of Norway

14.30-14.45 **Effect of screening programs on population wide breast cancer mortality**

Harald Weedon-Fekjær, Dept. of Biostatistics, University of Oslo

14.45-15.00 **Human papillomavirus testing in the Norwegian cervical cancer screening**

Mari Nygård, Dept. of Research, Cancer Registry of Norway

15.00-15.15 **Prevalence to incidence ratio as a quality indicator for colorectal cancer screening**

Nea Malila, Mass Screening Registry, Finnish Cancer Registry

15.15.-15.30 **Implementing Cost-Effective and Agile ICT Solutions with Open Source Software in Finnish Cancer**

Tuomas Lepola, Cancer Society of Finland

15.30-15.45 **Break**

Poster Session

Moderator: Eero Pukkala

- 15.45-15.50 ***Non-academic work at the Mass Screening Registry***
Minna Heikkilä, Mass Screening Registry, Finnish Cancer Registry
- 15.50-15.55 ***Monitoring Finnish breast cancer screening programme over the period 1992-2009***
Tytti Sarkeala, Mass Screening Registry, Finnish Cancer Registry
- 15.55-16.00 ***Lifestyle and quality of life effects of colorectal cancer screening. Population-based survey study in Finland 2010-2012***
Sanni Helander, Mass Screening Registry, Finnish Cancer Registry
- 16.00-16.05 ***Food quality index as a tool describing differences in diet quality among colorectal cancer screening attendees, non-attendees and controls***
Jonna Fredman, Mass Screening Registry, Finnish Cancer Registry
- 16.05-16.10 ***Association of symptoms of colon cancer patients with tumor location and TNM tumor stage***
Laufey Tryggvadottir, The Icelandic Cancer Registry
- 16.10-16.15 ***Impact of comorbidity on management and mortality in women diagnosed with breast cancer***
Anders Berglund, Dept. of Medical Epidemiology and Biostatistics, Karolinska Institute
- 16.15-16.20 ***Trends in incidence of Type 1 and Type 2 endometrial cancer in Denmark 1978-2009 among non-hysterectomized women***
Mette Tuxen Faber, Danish Cancer Society Research Center
- 16.20-16.25 ***Persistence and reappearance of carcinogenic human papillomavirus (HPV) after conization***
Camilla Flarup Glosvig, Danish Cancer Society Research Center
- 16.25-16.30 ***Prevalence and type-distribution of human papillomavirus among men in Tanzania***
Tina Bech Olesen, Danish Cancer Society Research Center
- 16.30-16.35 ***Baseline PSA measures to predict future prostate cancer risk and stage at diagnosis in the Danish prospective "Diet, Cancer and Health" cohort***
Signe Benzon Larsen, Danish Cancer Society Research Center
- 17.00-19.15 **Social activities - Excursion by bus & guiding - Holmenkollen Ski Jump**
- 19.45-20.15 **Music & Aperitif**
- 20.15- **Dinner**

ANCR's Scientific Programme - 30th August

Visions for Nordic cancer registry collaborations in the future

09.00-09.45 Keynote Speech: Hans Henrik Storm, Danish Cancer Society

Flagships of Nordic collaboration Chairs: Jørgen Olsen/Mari Nygård

09.45-10.00 ***Work and cancer: in-dept studies initiated by the NOCCA project***
Laufey Tryggvadottir, The Icelandic Cancer Registry

10.00-10.15 ***NORDCAN - status and new facilities***
Gerda Engholm, NORDCAN secretariat, Danish Cancer Society

10.15-10.30 **Break**

Poster Session Moderator: Elisabete Weiderpass

10.30-10.35 ***Variation in reporting of key parameters in pathology reports and the benefit of using structured templates***
Siri Larønningen, Dept. of Registration, Cancer Registry of Norway

10.35-10.40 ***Cancer registration in the Faroe Islands - updated and complete***
Niels Christensen, NORDCAN secretariat, Danish Cancer Society

10.40-10.45 ***Quality of the Finnish Cancer Registry: IARC-CHECKs vs. reality checks***
Minna Merikivi, Finnish Cancer Registry

10.45-10.50 ***Usage of Korean Cancer Registry for community-based cohort***
Young-Joo Won, Risk Appraisal & Prevention Branch, National Cancer Center, Korea

10.50-10.55 ***Comparison of data from the Norwegian Patient Register and the Cancer Registry of Norway***
Inger Kristin Larsen, Dept. of Registration, Cancer Registry of Norway

10.55-11.00 ***Ovarian cancer risk in Finnish women using postmenopausal hormone therapy - a case control study***
Tadeusz Dyba, Institute for Statistical and Epidemiological Cancer Research, Finnish Cancer Registry

11.00-11.05 ***Angiotensin receptor blockers and risk of cancer. Use of prescription data in linkages with the Cancer Registry of Norway***
Tom Børge Johannesen, Dept. of Registration, Cancer Registry of Norway

11.05-11.10 ***Cancer in childhood, adolescence and young adults: A population-based study of changes in risk of early cancer death during four decades in Norway***
Sara Ghaderi, Dept. of Public Health and Primary Health Care, University of Bergen

11.10-11.15 ***The harm of smoking among Norwegian women***
Elisabete Weiderpass, Dept. of Research, Cancer Registry of Norway

11.30-12.30 **Lunch**

Etiology and prognosis

Chairs: Kristina Kjærheim/Tom B. Johannesen

- 12.30-12.45 ***Spatial and familial clustering of different tumour types in Finland - Finnish Cancer Registry as key element of the Center of Excellence on Cancer Genetics***
Miia Artama, Inst. for Statistical and Epidemiological Cancer Research, Finnish Cancer Registry
- 12.45-13.00 ***Gene variations in sex hormone pathways and the risk of testicular cancer: A case-parent triad study in a Norwegian-Swedish population***
Tom Grotmol, Dept. of Research, Cancer Registry of Norway
- 13.00-13.15 ***Breast cancer and ductal carcinoma in situ (DCIS) among women with a history of moderate or high grade cervical intraepithelial neoplasia (CIN) or adenocarcinoma in situ (AIS): a register-based study***
Bo Terving Hansen, Dept. of Research, Cancer Registry of Norway
- 13.15-13.30 ***Can stage at diagnosis explain the poorer prognosis reported in women with pregnancy-associated breast cancer?***
Anna L. V. Johansson, Dept. of Medical Epidemiology and Biostatistics, Karolinska Institute

Survival II

Chairs: Åsa Klint/Bjørn Møller

- 13.30-13.45 ***Social inequality and cancer survival - a study of social position and stage at diagnosis and prognosis after head and neck cancer***
Maja Halgren Olsen, Danish Cancer Society Research Center
- 13.45-14.00 ***Exploratory analysis of the differences in prostate cancer survival between Denmark, Iceland, and Sweden - A high-resolution study***
Gerda Engholm, Dept. of Cancer Prevention and Documentation, Danish Cancer Society

Poster Session

Moderator: Laufey Tryggvadottir

- 14.00-14.05 ***Socioeconomic position and survival after cervical cancer - the influence of stage at diagnoses, treatment, health status and health behavior***
Else Ibfelt, Danish Cancer Society Research Center
- 14.05-14.10 ***In Sickness and in Health: the Role of Marital Partners in Cancer Survival***
Astri Syse, Dept. of Research, Cancer Registry of Norway
- 14.10-14.15 ***The effect of beta blocker use on the survival of prostate cancer patients: A cohort study of 24.572 Norw. prostate cancer patients***
Helene Hartvedt Grytli, Dept. of Tumor Biology, Inst. of Cancer Research, Oslo University Hospital, Radium hospital
- 14.15-14.20 ***Long-term outcomes according to prostate cancer risk category in a nation-wide, population-based cohort***
Fredrik Sandin, Regional Cancer Centre, Uppsala
- 14.20-14.25 ***Estimating the cure proportion of malignant melanoma, a population-based study in 2 regions in Sweden***
Therese M-L Andersson, Dept. of Medical Epidemiology and Biostatistics, Karolinska Institute
- 14.25.-14.30 ***Birth outcomes among female adult cancer survivors: Parity might matter***

Hanne Stensheim, Dept. of Registration, Cancer Registry of Norway

14.30-14.-35 ***A comprehensive review on risk for second primary cancers (SPCs) among cancer survivors in the Netherlands (1989-2008)***
Lifang Liu, Dept. of Public Health, Erasmus University Medical Center, Rotterdam

14.45-15.05 ***Future challenges for cancer registries***

Timo Hakulinen, Finnish Cancer Registry

15.05-15.25 ***Final Note***

Giske Ursin, Cancer Registry of Norway
